

FAASTeam presents:

July 1 (Wed) 7:00pm Airspace Refresher

Popquiz: What are the differences between Class G-low, Class G-mid, and Class G-high? What do the colors blue and magenta represent on a Terminal Area Chart? Where do you look it up? Where will you fly that will require you to use this knowledge? If it has been awhile since you sat through ground school, you may be due for an airspace refresher. In this safety seminar, we will review the different classes of airspace that are found in the United States. We'll cover their shapes, sizes, and operating rules. Special use airspace will be included in the discussion. You will leave the seminar with a renewed understanding, and probably a few memory aids to take with you on your next flight. This safety seminar is open to current and aspiring Private Pilots, and will be of particular interest to students, pilots and those who are preparing for a flight review. San Carlos Flight Center was voted Best Flight School in the US in the 2013 AOPA Flight Training Excellence Awards. We are committed to promoting safety in general aviation through our evening safety seminar programs. For more information about this and any of our weekly seminars, please visit <http://sancarlosflight.com/activities-and-events>.

Event Details

Wed, Jul 1, 2015 - 19:00 PDT

San Carlos Flight Center

655 Skyway Road
